

Task #1 - You are going to watch a video from a NZ news channel. Watch the video and answer the questions:

1. What is the video about?

*Beginner to Elementary answer: The video is about food in schools in New Zealand*

*Intermediate to Advanced answer: The video talks about how food quality in NZ schools is poor and how it has become necessary to tackle this issue now*

2. What is the main problem? Why?

*Beginner to Elementary answer: Children are not eating well while in school because schools don't have good options of food*

*Intermediate to Advanced answer: A survey has shown that 90% of children in NZ have not been given proper meals while in schools. Healthy options are being replaced with cheaper, more accessible food, and children are going back home hungry.*

Task #2 - Mark T for TRUE and F for FALSE:

1. According to the news presenter, 90% of children are eating fruits and vegetables **F**

According to the news presenter, 90% of children aren't eating fruits and vegetables

2. The chef has cooked around the world **T**
3. The chef enjoys cooking for their own people **T** *In other words: "nothing beats helping in his own backyard"*
4. All schools have good meals **F**
5. Across all school, students went home hungry **T**
6. Food and diet situation for the kids are bad **T** *in other words: "food and diet situation for the kids is really dire"*
7. There is a national program that gives food to 9000 schools in NZ **F**

There is a national program that gives food to 900 schools in NZ **F** - *Nine hundred*

8. The expert wishes there are strong policies on health and wellbeing for kids **T**

Task #3 - Now, use your own words to answer the questions below:

1. Has this information surprised you? Why? Why not?

*Use your own words*

2. Do you think this is a problem you can find in your own country? Why? Why not?

*Use your own words*

3. How can this problem be fixed? If you could, how would you try to solve this problem?

*Use your own words*
